

## Air Freshener - Juliet Rose

Active Odour Neutralisation · Ambient Air Freshening

### KEY BENEFITS

— <b>Juliet Rose fragrance profile</b>	the soft, powdery, warm floral character of the David Austin Juliet rose — not the sharp, synthetic note of standard rose air fresheners.
— <b>Active odour neutralisation</b>	reacts with household malodour compounds rather than just overlaying them — the freshness lasts because the source has been addressed.
— <b>Ready to use</b>	fill any trigger spray bottle or wall-mounted dispenser directly from the 5-litre pack.
— <b>Neutral pH</b>	compatible with all manual and automated dispenser systems without equipment corrosion risk.
— <b>5-litre refill</b>	80–90% lower cost per application than aerosol alternatives — premium ambient fragrance at everyday pricing.

### AT A GLANCE

<b>pH</b>	Neutral
<b>Dilution</b>	Ready to use
<b>Fragrance</b>	Juliet Rose — soft floral, warm, powdery
<b>Pack size</b>	5 Litres
<b>Shelf life</b>	18 months from manufacture date, unopened
<b>Application</b>	Manual trigger spray / automated dispenser

### HOW TO USE

- 1 Manual spray**  
spray 2–3 times from 1.5 metres height into the centre of the room. Allow to diffuse naturally.
- 2 Dispenser fill**  
fill any wall-mounted or automated dispenser directly from the pack.
- 3 Frequency**  
2–3 applications daily for consistent ambient freshness. Increase in high-odour areas or after cooking.
- 4 Avoid**  
do not spray directly onto fabric, polished wood, or painted surfaces.

### WHY IT WORKS

Rose fragrance is one of the most chemically complex natural fragrances — over 300 individual compounds. The Juliet Rose profile captures the softer, warm-floral character of the David Austin cultivar through a curated blend that emphasises the geraniol and citronellol compounds responsible for the rose's soft, powdery quality, rather than the sharper phenylethyl alcohol that dominates most synthetic rose fragrances. The odour neutralisation compounds in the formulation react with sulphur-based household malodour molecules, converting them to odourless products before the fragrance compounds provide the positive ambient signal.

### WHAT YOU GET FROM ONE PACK

#### 1.5 ml per spray.

One 5-litre pack. Over 1,100 room freshening applications. At 1.5 ml per spray and 3 sprays per room application, a single 5L pack delivers over 1,100 room freshening sessions. For a 3-bedroom home freshened twice daily in common areas, one pack covers approximately 6 months of daily use. Versus aerosol cans at equivalent volume, the cost per application is 80–90% lower.

## FULL PRODUCT SPECIFICATIONS

---

<b>Fragrance</b>	Juliet Rose — soft floral, warm, powdery
<b>Active system</b>	Rose fragrance compound + odour neutraliser
<b>pH</b>	Neutral
<b>Dilution</b>	Ready to use
<b>Application</b>	Manual trigger spray / automated dispenser
<b>Shelf life</b>	18 months from manufacture date, unopened
<b>Pack size</b>	5 Litres

## CAUTION & STORAGE

---

### Handle with care.

Ambient use only — not a surface cleaner or disinfectant. Do not spray onto food, food surfaces, or into ventilation intakes. Keep out of reach of children. Avoid contact with eyes. Do not ingest. Store in original sealed container below 30°C, away from direct sunlight. Keep tightly closed when not in use. Shelf life 18 months from manufacture date, unopened.
