

Regular Phenyl

Phenolic Disinfectant · Phenolic Disinfectant · with Neutral pH Concentrate, 250 ml per Litre + Classic Fragrance

KEY BENEFITS

— Phenolic disinfection	the same antimicrobial chemistry that has been used in hospitals and homes across India for generations — proven, reliable, and still the benchmark.
— Neutral pH	safe on marble, ceramic, mosaic, vinyl, and every other hard floor in your home or office without surface damage risk.
— 250 ml per litre	a simple dilution that anyone can follow — no measuring equipment, no guessing, no wasted product.
— Classic phenyl fragrance	the universally recognised signal of a clean, disinfected floor — a scent that communicates hygiene to everyone who walks in.
— 5-litre value pack	significantly lower per-litre cost than consumer-size bottles — fewer trips to the store, more weeks of clean floors.

AT A GLANCE

pH	Neutral
Dilution	250 ml per litre of water
Fragrance	Classic phenyl
Pack size	5 Litres
Shelf life	24 months from manufacture date, unopened
Safe on	Marble, ceramic tile, mosaic, vinyl, all hard floors
Rinse after use	Not required

HOW TO USE

- 1 Dilute**
add 250 ml of phenyl to 1 litre of water in a mop bucket.
- 2 Mop**
mop all hard floor surfaces using overlapping strokes.
- 3 Dry**
allow to air-dry. No rinsing required.
- 4 Frequency**
once daily for routine home or office maintenance. Twice daily in high-traffic areas or during illness in the household.
- 5 Keep away**
keep children and pets off the wet floor until fully dry.

WHY IT WORKS

Phenolic compounds — the active ingredient in phenyl — work by disrupting the cell membrane of bacteria. When diluted phenyl contacts a floor surface, the phenolic molecules penetrate the bacterial cell wall, causing the cell contents to leak and the bacteria to die. It is not a masking mechanism. It is not a cleaning mechanism. It is a killing mechanism. That is what disinfection means, and that is what phenyl delivers.

WHAT YOU GET FROM ONE PACK

250 ml per litre.

One 5-litre pack. Twenty full mop buckets. At standard dilution, a single 5L pack makes 20 litres of working disinfectant — that is 20 complete mopping sessions for a standard home. For a 3-bedroom house mopped daily, one pack lasts approximately 3 weeks. For a small office or shop, even longer. Compared to individual 500 ml consumer bottles, the 5-litre pack reduces your per-litre cost by more than half — and eliminates the weekly store run.

FULL PRODUCT SPECIFICATIONS

Active ingredient	Phenolic compound blend
pH	Neutral
Dilution	250 ml per litre of water
Fragrance	Classic phenyl
Safe on	Marble, ceramic tile, mosaic, vinyl, all hard floors
Rinse after use	Not required
Shelf life	24 months from manufacture date, unopened
Pack size	5 Litres

CAUTION & STORAGE

Handle with care.

Keep out of reach of children and pets. Avoid contact with eyes — rinse immediately with water if contact occurs. Do not ingest. For floor use only — not for skin, food surfaces, or clothing. Store in original sealed container below 30°C, away from direct sunlight. Keep tightly closed when not in use. Shelf life 24 months from manufacture date, unopened.
