

Toilet Cleaner

Mild Acid pH 2.5–3.0 · Mild Acid pH 2.5–3.0 · with Cling Gel Formula, 45 ml per Bowl

KEY BENEFITS

— Mild acid pH 2.5–3.0	strong enough to prevent everyday bowl staining and surface scale, gentle enough for daily use without aggressive chemical handling requirements.
— 45 ml per bowl	precise, low-waste dose — apply, brush, flush. No over-application, no wasted product.
— Prevents build-up	daily application stops scale and staining from becoming the chronic problem that requires heavy-duty intervention to correct.
— Suitable for daily use	homes, small offices, and any washroom that needs consistent everyday toilet hygiene maintenance.
— 5-litre value pack	approximately 110 bowl applications per pack — nearly 2 months of daily cleaning for a single toilet.

AT A GLANCE

pH	2.5–3.0
Dose per bowl	45 ml
Pack size	5 Litres
Shelf life	24 months from manufacture date, unopened
Safe on	Ceramic toilet bowls, porcelain, vitreous china
Rinse after use	Flush thoroughly

HOW TO USE

- 1 Apply**
squeeze 45 ml under the toilet rim and across the bowl surface.
- 2 Spread**
use a toilet brush to spread product across the bowl and under the rim.
- 3 Wait**
allow 5 minutes contact for routine maintenance.
- 4 Flush**
flush thoroughly to rinse. Done.
- 5 Frequency**
daily for maintenance. For heavier build-up, use Alle's ClinX Labs Transparent Toilet Cleaner (Thick Acidic).

WHY IT WORKS

Toilet bowl scale is primarily calcium carbonate from hard water, and uric deposits from use. Both are alkaline or near-neutral compounds that dissolve when exposed to acid. At pH 2.5–3.0, the mild acid in this cleaner reacts with these deposits on contact, converting insoluble calcium compounds to soluble calcium salts that flush away cleanly. Applied daily at 45 ml, the contact is sufficient to dissolve what has just been deposited — before it has hardened into the thick scale layer that needs 30 minutes of strong HCl to remove.

WHAT YOU GET FROM ONE PACK

45 ml per use.

One 5-litre pack. 111 toilet cleaning sessions. At 45 ml per application, a single 5L pack delivers 111 complete bowl-cleaning sessions. For a home with one toilet cleaned daily, one pack lasts nearly 4 months. For two toilets cleaned daily, approximately 55 days — still excellent value versus individual 500 ml bottles.

FULL PRODUCT SPECIFICATIONS

Active system	Mild acid + surfactant
pH	2.5–3.0
Dose per bowl	45 ml
Safe on	Ceramic toilet bowls, porcelain, vitreous china
Avoid on	Marble, natural stone, acid-sensitive surfaces
Rinse after use	Flush thoroughly
Shelf life	24 months from manufacture date, unopened
Pack size	5 Litres

CAUTION & STORAGE

Handle with care.

Acid product. Keep out of reach of children. Avoid contact with eyes and skin — wear gloves during application. In case of eye contact, rinse immediately with water for 15 minutes. Do not mix with bleach — produces toxic gas. Do not ingest. Store in original sealed container below 30°C, away from metals and alkaline products. Keep tightly closed when not in use. Shelf life 24 months from manufacture date, unopened.
